PART B – ADDITIONAL INFORMATION

3. INFORMATION

- 3.1 The updated draft Risk Management Strategy can be found in Appendix 1 of this report. The main updates are set out below.
- 3.2 The objectives and key benefits have been updated to reflect the latest risk reporting so that there is a consistent message about risk management:

- 3.3 Section 4 of the document increases the focus on risk appetite compared to the previous version. It is important that the council understands its risk appetite in order to decide how best to mitigate and manage risks.
- 3.4 C.Co have developed a risk hierarchy which sets out the relationship and positioning of the different types of risk – strategic, operational, service and project risks. This enables movement of the risks between registers where appropriate as it explains how to assess which level the risk should be reported at:

- 3.5 C.Co's review of the previous version of the Risk Management Strategy highlighted that there was a lack of documented roles and responsibilities which can create reduced accountability. The updated strategy includes stronger language along with clear governance routes with more responsibility given to risk owners and leads that are closer to the threat. A member and officer 'risk champion' has also been recommended. Extended Leadership Team have decided that the officer role should instead be named a 'risk co-ordinator' and this is currently being advertised internally as a development opportunity.
- 3.6 C.Co have recommended a 6-step process, increasing the steps from 5 per the latest risk reporting. The additional step is that of 'allocating accountability and responsibility'.

- 3.7 Both the risk matrix and likelihood/impact descriptors will remain the same as in the previous version. However, there is a recommended update to the monetary values included in the risk impact as set out below:

- Catastrophic Impact – Increase from £200k to £1m
- Major Impact – Increase from £100k to £500k
- Moderate Impact – Increase from £50k to £250k
- Minor Impact – Increase from £10k to £100k
- Insignificant Impact – Increase from £5k to £10k

3.8 New templates have been developed for risk registers and these will be used create new operational and strategic risk registers. Reporting templates (to be incorporated into the new Integrated Performance Management) have also been updated and will now include strategic risks together with the highest scoring operational risks. This will allow members to have visibility of all significant risks and prompt conversations about the escalation or de-escalation of any.
